PROFESSIONAL SUMMARY

MEAN Stack Developer with 5 years of experience across enterprise and freelance projects, building scalable, secure, and responsive web applications using Angular, TypeScript, Node.js, Express.js, MongoDB, MySQL, Firebase, and AWS. Proven record in enterprise banking and payment products: upgraded 3 enterprise applications across 10 major Angular versions (v11 to v21) and delivered 3+ full-stack applications end to end. Strong in RESTful API development, authentication and role-based access control, unit testing with Karma and Jasmine, performance optimization, and Agile delivery.

TECHNICAL SKILLS

Frontend: Angular (v11–v21), TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Design, WCAG Accessibility

Backend: Node.js, Express.js, RESTful APIs, API Integration, Authentication and Authorization, Role-Based Access Control, Secure Web Development

Databases and Cloud: MongoDB, MySQL, Firebase (Firestore, Realtime Database, Web Push), AWS (EC2, S3, Simple Email Service)

Enterprise and Messaging: Apache Tomcat, Kafka, Zookeeper, RabbitMQ, SAML, Okta Authentication

Testing and Tools: Karma, Jasmine, Git, GitHub, GitLab, Postman, JIRA, NPM, PuTTY, MS Office

Methodologies: Agile Development, Sprint Planning, Requirement Analysis, Code Review, Bug Fixing, Production Support

PROFESSIONAL EXPERIENCE

Specialist Software Engineer | Volante Technologies **Aug 2024 – Present**

- **VolPay 3X:** Developed banking and payment workflow features for an enterprise financial messaging product, supporting payment orchestration, multi-format financial messaging, regulatory compliance, and workflow automation.
- **VolPay 3X Revamp:** Built an Outlook-style Angular frontend that reduced user clicks and navigation steps, modernized the UI architecture, and strengthened package security for the enterprise product.
- **Dynamic Forms:** Developed a JSON-driven dynamic form rendering application to create, manage, and reuse UI components across enterprise application workflows, reducing repetitive form-development effort.
- **Key Achievement:** Upgraded 3 enterprise products (VolPay 3X, VolPay 3X Revamp, Dynamic Forms) from Angular 11 to Angular 21 across 10 major versions, improving maintainability, dependency security, package compatibility, and scalability.
- **Tech Stack:** Angular (v11–v21), TypeScript, JavaScript, Bootstrap, MongoDB, RESTful APIs, Kafka, Zookeeper, RabbitMQ, Apache Tomcat, SAML, Okta, WCAG, GitLab, JIRA.

Full Stack Developer | Migri Technologies **Jul 2021 – May 2024**

- **Thesis Flow:** Developed an examination management platform for IIT-level institutions, owning application architecture, workflow design, full-stack implementation, RESTful API integration, and unit testing with Karma and Jasmine.
- **Rural Youth:** Built a rural development survey application for NGOs supporting student career development, with dynamic survey pages, content management, and multilingual translation features.
- **Portfolio Websites:** Created customizable portfolio websites for IIT faculty to manage research publications, academic profiles, and professional data through JSON-powered content management.
- **Workflow Achievement:** Redesigned the initial Thesis Flow workflow by resolving process flaws and usability gaps, improving application reliability and end-user experience.
- **Delivery Achievement:** Delivered 3+ full-stack applications across education, NGO, and portfolio management domains, from requirements through deployment on AWS and Firebase.
- **Tech Stack:** Angular, TypeScript, JavaScript, HTML5, CSS3, Bootstrap, Node.js, Express.js, MySQL, Firebase, AWS EC2, AWS S3, Git, JIRA, Postman.

Full Stack Developer (Freelance) | Independent Projects **2021 – Present**

- Developed full-stack web applications for accounts management, clothing e-commerce, and herbal product e-commerce clients, covering responsive UI development, RESTful APIs, database integration, and deployment support.
- Collaborated on side projects delivering end-to-end features using Angular, Node.js, Express.js, and MySQL, including client requirement gathering and post-launch support.

EDUCATION

B.Sc. Computer Science | Arignar Anna Government Arts College, Attur **2018 – 2021**

LANGUAGES

English (professional proficiency), Tamil (native)
